National board scores that are received from either the national examination committee or the North American Veterinary Licensing Examination committee from another state may be accepted for part of an applicant's passing score.

D. An applicant's score that was received within the preceding five years and that is on record at the national examination service or the North American Veterinary Licensing Examination committee shall be verified through either the national examination service or the North American Veterinary Licensing Examination committee, unless the applicant is applying for a license by endorsement or a specialty license under section 32-2215, subsection C or D in which case the applicant's score shall be transcribed and received by the Board.

- B. An applicant may be denied licensure either before or after an examination if the applicant has committed any act that if committed by a licensee would be grounds for suspension or revocation of a license to practice veterinary medicine under this chapter.
- C. The Board may waive the examination requirement pursuant to section 32-2214, subsection A, paragraph 2 and, except as provided in subsection E of this section, may issue a license by endorsement to an applicant to practice veterinary medicine if the applicant provides all required documentation pursuant to section 32-2213 and meets the following requirements:
1. Holds an active license in one or more other states or in Canada and submits verification that the applicant has previously taken and passed the examination required by section 32-2214, with a score at least equal to the score required to pass in this state. An applicant who received original licensure before the examination required by section 32-2214 was required in the state in which the applicant was originally licensed may be eligible for licensure without having taken that examination as required pursuant to this chapter if all other requirements are met.
 2. Lawfully and actively engages in the practice of veterinary medicine for at least three of the preceding five years or six of the preceding ten years in one or more states in this country or in Canada before filing an application for licensure in this state.

 4. Pays a fee for the specialty license of seven hundred fifty dollars.
- E. The Board shall determine whether previous disciplinary action prevents licensure by endorsement or specialty licensure of an applicant to practice veterinary medicine and the Board may discipline the licensee at the time of licensure as a result of the previous disciplinary action.
- F. Any veterinary faculty member who is employed by a veterinary college that is accredited by the American Veterinary Medical Association, if applicable, is subject to the requirements under the veterinary faculty member license.

32-2216. Issuance of temporary permits; emergency temporary permits; definition

- A. The Board may issue temporary permits to veterinary license applicants and to veterinarians who are licensed in other states and who enter this state to provide voluntary services during a state of emergency as declared by the Governor or the Board of Supervisors of the county in which the Board of Supervisors has declared a state of emergency pursuant to section 26-311. Except for applicants who are veterinary faculty members who have graduated from a veterinary college, applicants for all temporary permits must be graduates of an American Veterinary Medical Association accredited veterinary college or holders of a certificate from the Educational Commission for Foreign Veterinary Graduates or from a Program for the Assessment of Veterinary Education at the time of application.
- B. The temporary permit issued under this section entitles a veterinary license applicant to engage in the active practice of veterinary medicine in this state as an employee of a licensed veterinarian, this state or any county or municipality in this state. The applicant is eligible for the next examination, if the applicant has not violated any provision of this chapter. An applicant working under the direct and personal instruction, control or supervision of a licensed veterinarian and whose compensation is paid by the veterinarian may perform those acts of animal health care assigned by the veterinarian having responsibility for the care of the animal. The temporary permit described in this subsection expires twenty days after the examination. If the applicant fails for good and sufficient reason to take the examination, the Board, by majority consent, may extend the permit until the next succeeding examination. Except as otherwise provided in this section, the holder of a temporary permit must be examined and satisfactorily pass the license examination next following the issuance of the permit and duly receive a license in order to continue active professional practice. The temporary permit may be extended only one time. For the purposes of this subsection, "direct and personal instruction, control or

supervision" means that a veterinarian who is licensed by the Board is physically present and personally supervising a temporary permittee when the permittee is practicing acts of veterinary medicine except if the permittee is at a temporary site for the purpose of delivering services to large animals or if the permittee is administering emergency services not during regular office hours. In these cases, phone contact constitutes direct and personal instruction, control or supervision.

- C. If an employer, for any reason, terminates the employment of the applicant, the employing veterinarian shall notify the Board and the temporary permit described in subsection B of this section is immediately void.
- D. An emergency temporary permit that is issued to an individual who is a veterinarian licensed in good standing in another state entitles the individual to provide voluntary veterinary care during a state of emergency for the sole purpose of assisting in care related to that emergency. The emergency temporary permit expires ninety days after the date of issuance or at the end of the state of emergency, whichever occurs first. An applicant for an emergency temporary permit shall submit a complete application, including information regarding veterinary licensure in any other state and verification that the statutes and rules pertaining to the Board have been reviewed. The Board shall verify whether the veterinarian is licensed in the state or states indicated and confirm the applicant's good standing. The applicant is not required to pass the state veterinary examination. A veterinarian who is issued an emergency temporary permit under this section shall practice in accordance with all laws and rules related to the practice of veterinary medicine in this state. The Board may investigate any alleged violation by a holder of an emergency temporary permit and take disciplinary action as prescribed in this chapter. A veterinarian granted an emergency temporary permit under this section is a licensed, certified or authorized emergency responder pursuant to section 26-353 and an emergency worker as defined in section 26-301.
- E. For the purposes of this section, "Emergency Temporary Permit" means a temporary permit that is issued to a veterinarian who is licensed in another state and who enters this state to provide voluntary services during a state of emergency as declared by the Governor or the county Board of Supervisors pursuant to section 26-311.

32-2217. Employees of the state or political subdivisions; license

The Board shall issue a license to any person who is not licensed by examination to practice veterinary medicine in the state and who is employed as a veterinarian by the state or any political subdivision thereof. An applicant for a license under the terms of this section shall make written application therefor to the Board as required by section 32-2213 and shall meet the qualifications prescribed by section 32-2215 with the exception of subsection A, paragraph 3. The holder of a license issued under the terms of this section shall engage only in such actions of the practice of veterinary medicine as shall be authorized by the Board, and in no event shall acts of practice be performed for any person or firm other than the state or the political subdivision employing the licensee. The licensee shall be subject to the rules of the Board and the provisions of this chapter relating to unprofessional or dishonorable conduct. A license expires on December 31 of every even-numbered year unless suspended or revoked.

A license is renewable for two years on payment of the renewal fee. The fee for issuance of the license shall be five dollars in even-numbered years and ten dollars in odd-numbered years, and the biennial renewal fee shall be ten dollars. The license shall be revoked upon termination of employment of the licensee.
